## INSTALLATION PICTURES

## INSTALLATION PROCEDURE

Step 1: Refer to Part List to check if all hard ware are included.

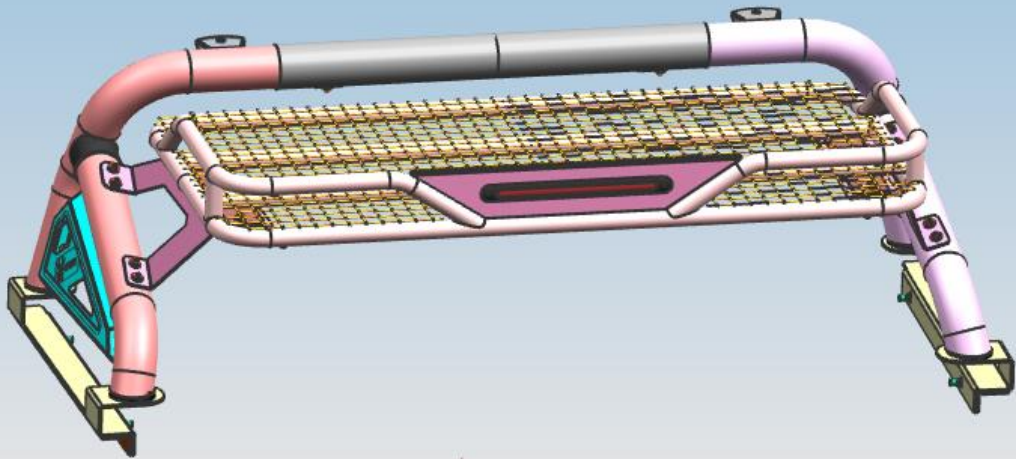

Step 2: As shown in the above figure, lock and install the side plate with the front and rear bars according to the corresponding standard parts in different figures. Next, screw the bottom plate onto the installed front and rear bars, and tighten them with M8x30 Hexagon socket button head screws.

Step 3: Drill a  $\Phi$  13.8 hole, then drive an M10 flat head rivet nut and tighten the anti rollover frame bottom plate with an M10 \* 35 hex head bolt

Step 4: Check if all hard ware are installed and then fasten all to complete the installation.

Step 5: Easy Install refer Pic 2.
